

## SPRINT-4

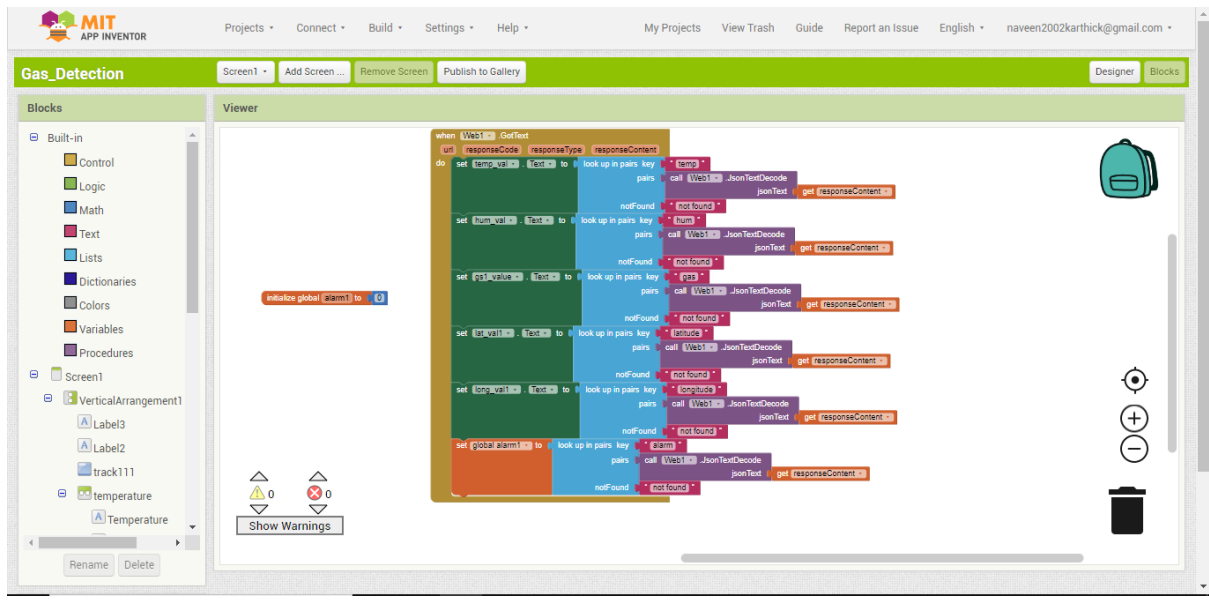

TEAM ID	PNT2022TMID15087
PROJECT NAME	GAS LEAKAGE MONITORING AND ALTERING SYSTEM FOR INDUSTRIES

### Node Red sending data to MIT app:

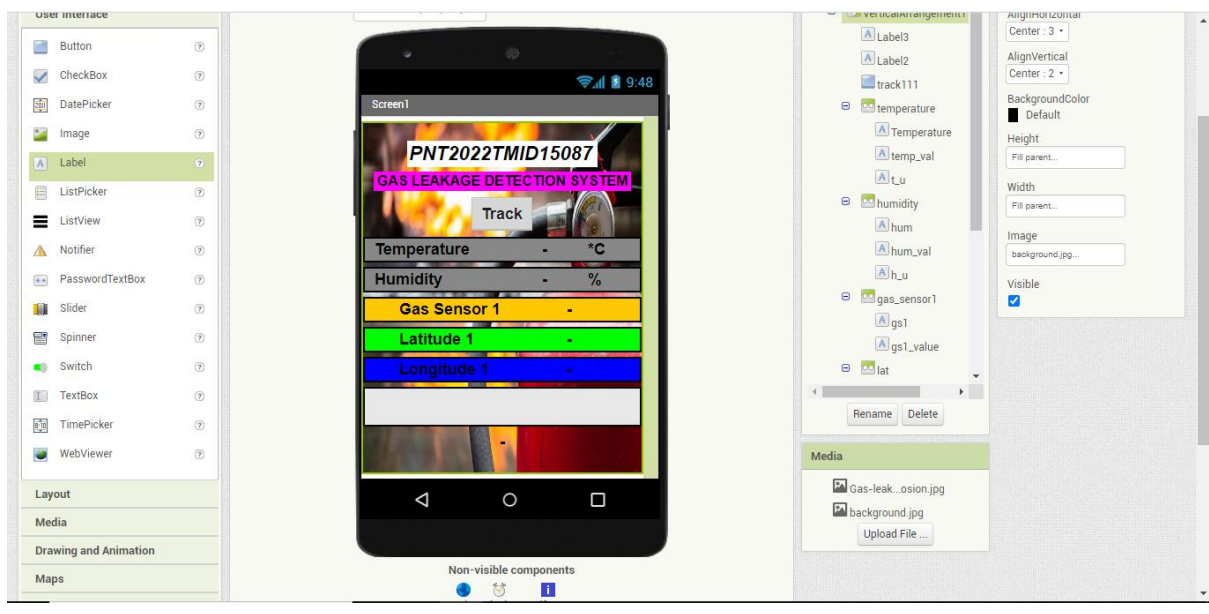

### Receiving data from Node Red

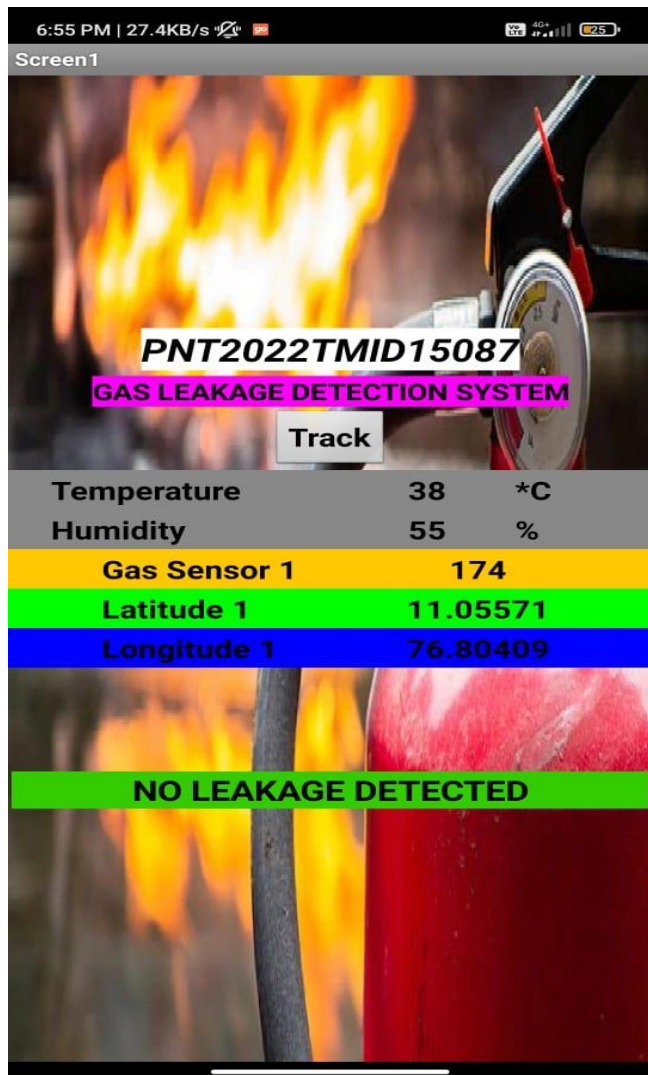

## MIT app frontend creation

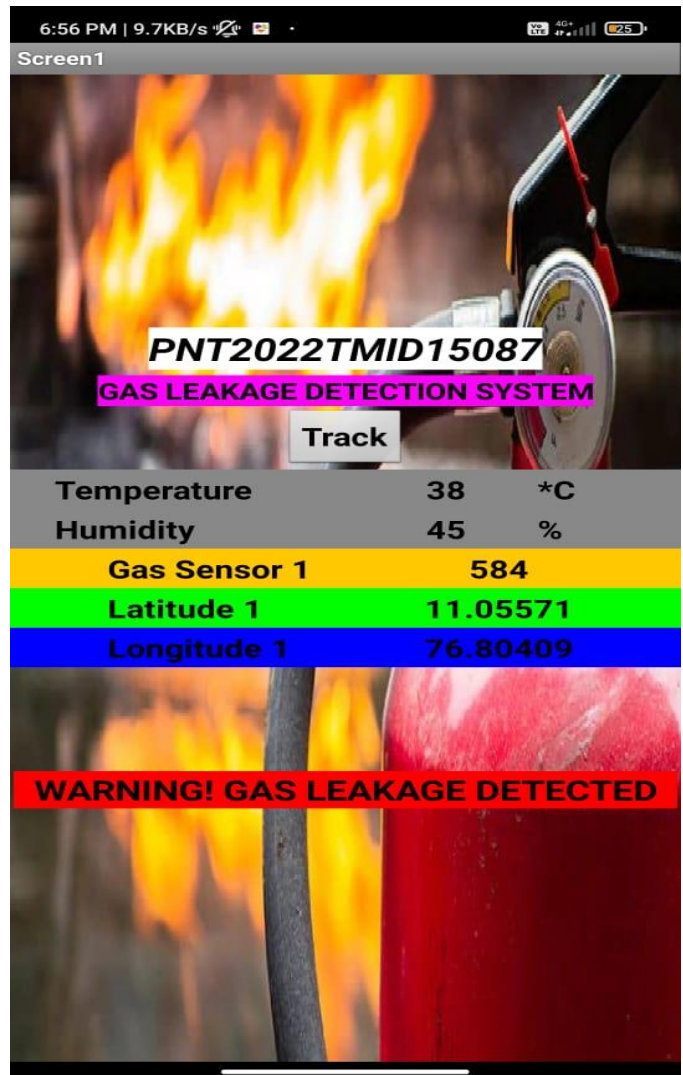

## Mobile app screenshot:

When no leakage is detected

When leakage is detected

When leakage is detected , the app will give as a notification along with an alarm and we can track the location of the gas leakage in the track button.
